Four-Level Filtration

ProTeam's unique suction method of vacuuming cleans carpeting and floors without stirring up dust. The air stays cleaner, furniture collects less dust, and the operator can work without breathing unhealthy air. The Four-Level Filtration® system is up to 99.79% efficient in filtering particles.

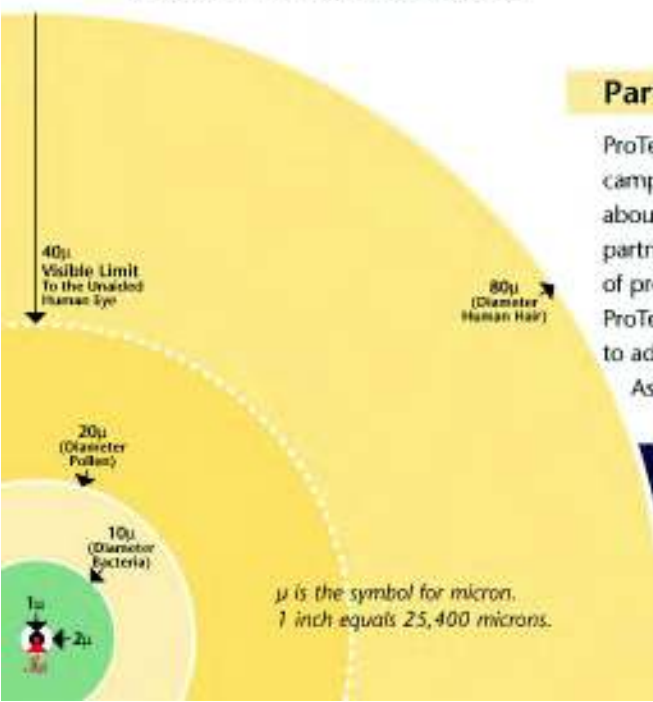

- Level 1 Reusable 2-ply micro filter
- Level 2 Micro intake filter
- Level 3 Sound exhaust foam filter
- Level 4 HEPA filter media

Cleaning for Health*

More and more studies are linking particle pollution to school absenteeism, heart disease, and cancer. At ProTeam, we are committed to providing the best vacuums available with superior filtration that improves indoor air quality. We can't guarantee more year on your lifespan, but we will guarantee the best vacuum for your money and health!

Chart Shows Relative Size of Airborne Contaminants

ProCare Series vacuums work equally well on either hard floors or carpets.

Partners in Indoor Air Quality Education

ProTeam has partnered with the American Lung Association in a campaign designed to promote public awareness and education about indoor air quality issues. This exclusive educational partnership recognizes the American Lung Association's mission of preventing lung disease and promoting lung health. As well as ProTeam's goal of developing innovative cleaning technologies to address indoor air quality concerns. The American Lung Association does not endorse products.
